

AMENDMENTS TO THE SPECIFICATION

Please delete the present Abstract of the Disclosure.

Please add the following new Abstract of the Disclosure:

A system and method for providing an internet connection service in a plurality of places, where a user may obtain the service with little to no fee. The user is required to have a prior contract in which the user selects from any array of service classes. Different service classes have different restrictions on the content allowed when using the service. In addition, users have the option to view advertisements, which may be selected by an advertisement distributor, in order to reduce or negate the fee for using the service.
